Some notes...

Timing:

When planning the timeline, please consider when the groom and bride will be getting ready, and that I will have to move between one and the other. A good solution is to have the groom get dressed an hour or so before the bride, especially if it takes more than a few minutes to travel between locations.

Travel Costs:

I am based in the winelands of the Western Cape (Wellington), but travel for free in a radius of 60km from Wellington. That means the first 120km of travel is free. After that, the rate is R5 per km. If your location's travel time will take more than 1.5 hours, please remember to add a little extra to your budget for one night's accommodation at a B&B. If we're looking at 3+ hours, we will require accommodation for the night before the wedding as well. If your wedding is taking place far outside of the Western Cape, please remember to budget a bit extra for flights, a rental car & two night's accommodation at a B&B.

FAQ

Q: Can we choose the music for the videos?

A: There are a couple of key points regarding music that should be noted. Due to copyright laws, no commercial music can be used in your videos. Instead, we purchase special “library” music for this purpose. This means that we unfortunately cannot, by law, include the music chosen by you for events like the first dance, or the “walk in”. If you would like a few music options for the highlights film, we will gladly provide a few.

Q: How long will it take to edit the videos?

A: Depending on the business of the wedding season, delivery usually takes place after roughly 8 weeks.

Q: In what format will I receive my videos?

A: All final HD videos will be sent via a download link, as well as links to the videos on my YouTube channel. These links are private, and you can share it only with the people you want to.

Q: Do you use a drone?

A: Unfortunately not, due to legal restrictions.
